Product description

The BMW Future Car Cover is a completely new development and has been specially designed for use both indoors and out. The use of this cover helps to preserve the value of the car. The car is optimally protected against dirt and dust, as well as against environmental influences and scratches. The cover is specially tailored to fit like a second skin over F30 cars.

The design has been consciously chosen: a stylish design is printed on both sides of the car cover. In addition, the Car Cover has been made with the minimum number of seams so that it has the effect of a sealed cover. The beading of the Car Cover continues all the way round in contrasting black. The back of the cover bears the model designation "BMW 3 Series".

Sales features/benefits

- Universal application both indoors and out.
- Helps to maintain the value of the car
- Water impermeability.
- Protects against dirt, environmental effects and scratches.
- Tailored fit.
- Easy to use.
