

Original BMW Accessories M Performance Aerodynamics Package X5 (F15)

NEWS:

- New product launch

Product description

The M Performance Aerodynamics package for the F15 comprising a carbon front add-on section, carbon rear diffuser, Roof spoiler and side tail flaps further accentuates the striking appearance of the F15. The high-quality materials of the Aerodynamics package also satisfy even the most demanding of customers' wishes to highlight the F15's superlative sportiness.

Sales features / benefits

- Visual highlight: The **solid carbon front add-on section and rear diffuser** create a high-quality, sporty appearance.
- The **design** of the front add-on section, rear diffuser and tail flaps has been calibrated perfectly with the design of the car, giving both the front and rear sections an even **sportier and more masculine appearance**.
- Eye-catcher: **Two striking bars** are integrated into the rear diffuser. Their **angular, edgy appearance** makes the rear diffuser look even more striking. Their position was chosen so that the **trailer tow hitch can continue to be used without problems**.
- The side **tail flaps** amplify the **width effect** of the F15 and represent a visual enhancement to the rear diffuser.
- The wing profile of the tail flaps on the bumper turns heads. The **exterior surface in carbon** and the **high-gloss black-painted underside** of the flaps ensure a very high-quality appearance.
- The front add-on section has been tested with the **lower leg crash test**. All legal requirements for pedestrian protection are met.
- **Simple installation:** The parts of the Aerodynamics package are supplied inclusive of fastening materials and simply need to be screwed and glued into place.
- A **TÜV entry is not required**. All parts have already been homologated with the overall vehicle.

Content / relevance

Please note that this product information is intended solely as prior information regarding new products.

Before ordering, always check the specified part numbers in the EPC. Only the EPC provides the information that should be taken as valid and current.

Complete price package

For a detailed tender preparation, find the complete price package on the KSD DVD.

Please refer to your price system or the latest price publications for the latest prices.

M Performance Aerodynamics Package X5 (F15)

M Performance Aerodynamics package

Cross-selling

The product package is especially ideal for cross-selling with:

- **Black radiator grille** to make the front of the car look even sportier.
- **M Performance side sill film** for additional accents on the bodywork.
- **Carbon mirror covers** that give the car a uniform appearance.

Supplied package

- Carbon front add-on section
 - Carbon rear diffuser
 - Black high-gloss roof edge spoiler
 - Carbon/PU (polyurethane, DIN code: PUR) tail flaps
 - Fastening materials
- See EPC for details of the kit's contents.

Technical information

- A GOP (General Operating Permit) is not required since the diffuser is already homologised with the overall vehicle and satisfies all safety requirements worldwide.

Note:

- M Performance front splitter only in conjunction with the M Performance roof edge spoiler.
- M Performance Aerodynamics package only in conjunction with M Aerodynamics package (SA 715) or M Sport package (PA 337). ◀
