Product description

BMW all-weather floor mats effectively protect the footwell from dirt and wear. The stylish, three-dimensional design matches the floor trim perfectly and has been modelled on the flow of water. The water is able to drain away through grooves in the middle of the floor mat, from where it can be emptied as required.

The all-weather floor mats are available in

3 versions to personalise the car.

- **The Sport version** has a red edge to match the SA Sport Line.
- **The Modern version**, with its beige edge, matches the SA Modern Line.
- The **Basic version** of the floor mat has an anthracite edge.

The floor mats are supplied with hangers and an image strap. This allows the floor mats to be advertised directly in the showroom at the point of sale.

Sales features/benefits

- Custom fit to match the floor trim.
- Protects the interior of the car from water and dirt thanks to its raised edge.
- Groove design prevents water build-up in the footwell area.
- Attractive design perfectly colour-coordinated with the SA Lines.
- Extremely durable.
- Enhances and also insulates the interior compartment against noise.
- Preserves the value of the floor trim.

Material

- Thermoplastic elastomer (TPE)

All-weather floor mat, Sport version

Technical information

- 2 fleece velours pads are adhered to the reverse of the driver's mat. The velcro elements with bayonet fitting included with the kit, which are secured into the floor trim, are the counterparts to these pads and ensure that the floor mat is held perfectly in place.

Safety note

Always remove all mats or other objects from the floor of the car before laying the floor mats. After every clean, ensure that the floor mats are properly secured so that they do not slip while driving. Always use the velcro discs supplied. If there are already velcro discs in the car, please replace them with the discs supplied! ◀
