Original BMW Accessories 19" M Performance Dual Spoke 624M - forged wheel with Runflat tyres 1 Series (F20,F21), 2 Series (F22, F23)

NEWS:

- New product launch

Product description

The weight-optimised, forged M Performance alloy wheel impresses with the elegant design of its dual spokes. The 624M styling is available in the exclusive "matt black" and "polished" versions.

Sales features / benefits

- The **five elegant dual spokes** in the forged aluminium wheel have a unique look thanks to the **recessed additional spokes**.
- Painstaking production method: This elegance can only be achieved by milling the spokes from a **forging blank**.
- In the **"matt black" design**, the **aluminium becomes visible again** on the **spoke flanks and spoke backs** of the deeper-lying spokes thanks to a separate milling process carried out after painting. This dual colouring makes the wheel a real eye-catcher.
- The entire wheel is covered with clear matt varnish, which provides a **matt finish** and protects against corrosion.
- In the **"polished" version**, the entire wheel gleams with aluminium colours. The elegance of the dual spokes is therefore truly brought to the fore.
- High-gloss protection: The entire wheel is coated in high-quality clear-coat varnish, giving it a **particularly high-gloss finish**.
- Lightweight: The forged wheel is **around 1.0 kg** lighter than a wheel with comparable style and similar dimensions.
- The **BMW M logo** and **visible wheel bolts** give the wheel further eye-catching features.
- The wheels' low weight, as an "unsprung mass", improves the steering behaviour and ensures **enhanced driving dynamics**.
- Safety comes first: The tyres feature **emergency running properties / RSC**, so that even if they lose pressure, they can still be driven on for a certain distance.

19" M Performance matt black dual spoke 624M

19" M Performance polished dual spoke 624M

Promotion/POS (point of sale)

The alloy wheel's design is new and is being unveiled for the IAA 2013 for the first time.

Cross-selling

The product package is especially ideal for cross-selling with:

- **BMW wheel bolt lock:** The wheel bolt lock has a special, milled coding that can only be opened with the special adapter supplied.
- **BMW rim cleaner:** The effect of this product is coordinated with BMW wheels and delivers maximum cleaning without attacking the paintwork.

Content / relevance

Please note that this product information is intended solely as prior information regarding new products.

Before ordering, always check the specified part numbers in the EPC. Only the EPC provides the information that should be taken as valid and current.

Complete price package

For a detailed tender preparation, find the complete price package on the KSD DVD.

Please refer to your price system or the latest price publications for the latest prices.

Original BMW Accessories

- Complete wheel set: 4 wheels with Runflat tyres, fitted and balanced.
 - Single wheel: 1 wheel without tyre.
- See EPC for details of the kit's contents.

Technical information

- Wheel sizes:
 - Front axle: 7.5Jx19 Offset:45 H2
 - Rear axle: 8Jx19 Offset:52 H2
- Tyre dimensions:
 - Front axle: 225/35R19 88Y XL * RSC
 - Rear axle: 245/30R19 89Y XL * RSC

Note

- Homologation: In EU member states and Switzerland, customers must be given the excerpt from the EU type approval. This is located in wheel/tyre combinations on the EF website or KSD DVD. The excerpt must be carried in the car. Subsequent changes may need to be made to the car's paperwork, depending on the country.
- Suspension and tyre comfort may be restricted by the 19-inch wheel/tyre combination, depending on the driving situation. ◀
