

Original BMW Accessories M Performance Silencer System M5 (F10M), M6 (F06M, F12M, F13M)

NEWS:

- New product launch

Product description

From the racetrack straight to the road. The lightweight sport exhaust system made entirely from titanium produces a rich, powerful sound. It has been developed especially for the 5 Series and 6 Series models. In visual terms, the two 92 mm dual tailpipes made from polished titanium with the M logo create an unmistakable appearance.

From 2014 onwards, 95 mm tailpipe finishers made from carbon with the M logo will be available to choose from as an alternative.

Sales features / benefits

- The exhaust system has been developed in collaboration between **BMW and Akrapovic**.
- The M Performance silencer system gives the tail of the car a striking and **individual appearance**.
- The **perforated inner pipes** represent the ultimate in high-tech and sportiness, accentuating the individual character of the BMW M.
- **High-quality alternative:** from 2014, customers can choose between tailpipe finishers made from titanium or carbon, thereby making the car's design even more individual.
- Sounds like performance: the silencer system gives the car an extremely **powerful and sporty sound**.
- The optimised exhaust gas conduction system with reduced counterpressure **amplifies the characteristic V8 twin turbo sound** and accentuates the sporty driving feel.
- All of the parts in the silencer system are made from **high-quality titanium** - for a long service life and lasting resistance to corrosion.
- Lightweight: the titanium silencer system is **28% (10 kg) lighter** than the standard component.
- The silencer system has been developed using the latest **CAD and FEM technology**. This ensures an optimum fit and superlative manufacturing quality.
- **Simple installation:** The silencer system can easily be installed by screwing it into place - no welding is required.

M5 with M Performance titanium tailpipe finishers

Exhaust system with carbon tailpipe finishers

Cross-selling

The product is ideal for cross selling with:

- **Carbon rear diffuser** and **carbon rear spoiler** in order to further accentuate the striking rear section of the M6.
- **Black radiator grille** to make the front of the car look even sportier.
- **M Performance II steering wheel**. The steering wheel offers a real motorsport feeling thanks to its use of Alcantara and carbon materials as well as the red central marking.

Content / relevance

Please note that this product information is intended solely as prior information regarding new products.

Before ordering, always check the specified part numbers in the EPC. Only the EPC provides the information that should be taken as valid and current.

Complete price package

For a detailed tender preparation, find the complete price package on the KSD DVD.

Please refer to your price system or the latest price publications for the latest prices.

M Performance Silencer System

M5 (F10M), M6 (F06M, F12M, F13M)

Technical information

- Tested quality: the design, material and safety comply with the usual high BMW standards.
- All legal requirements are met and there are no further acceptances or entries required in the vehicle's paperwork.
- Please inform your customer that the approval documents available from the dealer must be carried in the car.
- Please inform your customer that the tailpipe finishers, due to the material properties of titanium, may turn a yellow/blue colour with increasing temperature stresses.

Note:

- The tailpipe finishers must be ordered separately.
- The tailpipe finishers can optionally be ordered in titanium or carbon from 2014 onwards.

Original BMW M Performance exhaust system compared to the original Akrapovic exhaust system:

The BMW M Performance exhaust system is produced by Akrapovic, however it differs in terms of important details from the original Akrapovic exhaust system. The extensive tests at BMW have only been successfully carried out with the BMW M Performance exhaust system.

Important information for dealers and customers:

If the installation of the original Akrapovic system causes damage to the car (e.g. to the engine, underbody or in the area of the rear apron), BMW accepts no warranty or guarantee for the damage caused. During tests with the original Akrapovic system, for example, considerable thermal damage occurred to the rear apron. For this reason, the tailpipes have been adapted as part of the development of the M Performance system. Only with the BMW M Performance exhaust system do the BMW car warranty and guarantee remain intact. ◀

Supplied package

- Complete exhaust system
- Fixing sleeve or required fastening material
Kit composition, see EPC

Availability/EPC DVD

Built after 09/2013

Installation time

Approx. 1.5 hours
